The Clan Structure vs. Shads

Plantation Clan Defined: A sprawling agricultural community utilizing different skill sets where like-minded people unite to survive.

SHAD Definition: Scoffer Heedless Asshole Deadweights

TAKE THE SHADS CHALLENGE:

1. ____ Can you be merciful to *Scoffer Heedless Asshole Deadweights* [SHADS] who may threaten the future survival of the clan?
2. ____ Can you show charity and equip frightened, Post Trauma Shock SHADS because a chord of many strands is harder to break?
3. ____ Can you to teach rationing, survival skills and work ethic with limited resources and abundant stress and danger to SHADS?
4. ____ Can you to transform panic-driven, Post Traumatic Shock SHADS into productive contributing members of a clan?
5. ____ Can you ex-communicate SHADS from the plantation if they fail again and again to perform duties?

WHY HELP SHADS?

1. When SHADS die at the plantation gates, one doesn't have more, one has less.
2. Reformed SHADS are pleasing to the soul and a pleasure to the plantation.
3. Inside a SHADS may be an agent ready to be freed from the victimhood chains of entitlement.
4. All need Community for Emotional, Social and Spiritual Support
5. A Prepper may need more hands to contribute to the plantation workforce
