GER 10/22 - M1 CARBINE STOCK

When you think of the venerable and reliable Ruger 10/22 Carbine, you automatically associate it with a platform that the average firearm enthusiast can work on and change it's looks into a variety of hunting, target and military styles.

Well the time has finally arrived for the 10/22 to be dropped into our no alterations needed, conversion M1 Carbine Stock. On our stock the front band has the sling swivel just like the original M1 Carbine stock, not like others that offer it with the swivel in the stock. The wood finish replicates the GI tung oil finish and comes with handguard and steel but plate.

The wood and color are so much like the real thing and the finish replicates the GI tung oil finish. Comes with handguard and steel buttplate.

People do a double take when they see it and realize it's not an M1 Carbine.

Also we include a web M1 Carbine sling and oiler/sling keeper, just our way of saying "THANK YOU FOR BEING OUR CUSTOMER".

The picture says it all!!! Limited quantities get them while you can \$99.95 STK340 We are in between shipments - 100 pcs coming, so get Online!

THE SUPHERB MMH FROM SARCO

This is the Army Acronym for a **MULTIPLE MAGAZINE HOLDER**. The purpose is to securely hold two M16 30-round magazines in a ready position which doubles your firing capability to 60 rounds. These ar now available for military and commercial use.

The result of in house comparative testing of the SARCO MMH proved that it totally out performs other commercial & military clamp type MMH's and offers many more user friendly advantages. Currently in combat use by military units.

From an Ergonomic onsideration alone, the SARCO, Inc. MMH offers many significant advantages over

all other clamp type MMHs:

It is a single unitized component, there are no bolts, clamps or nuts to assemble or lose No tools are required for assembling the magazines into the SARCO MMH - clamp type MHH units require tools which can be lost and must be retrieved when reinstalling or adjusting magazines.

NO ADJUSTMENTS REQUIRED ON SARCO MMH'S.

Magazines can be inserted and removed from the MMH in approximately 10 seconds Comes complete with instruction sheet

BROWN LEATHER WWII .45 HOLSTER

Brand new reproduction of the standard Model 1916 holster issued with the M1911 .45 Colt pistols. This pattern holster in the natural brown eather color was used throughout world War I and World War II. Our repro. holster is made from a quality grade of leather; and just like the originals it has the metal belt hook, leg thong, and the flap is marked "US". Original samples of this model are now scarce collector's items, too fragile and expensive to actually use. Our reproduction holster is economically priced and perfect for carried to the control of the cont ing your 1911 in the field or for re-enactments. \$17.50 ea. 3 for \$47.50 C45112

Original BM59 Mags

These are all of the parts except the receiver for the early model 7.62mm Italian BM59SL rifle. This rifle is essentially a standard M1 Garand semi-automatic that has been modified to use 20 rd. BM59 magazines, and has been chambered for 7.62mm Nato ammunition. It retains the well proven Garand sights, trigger mechanism and gas system, while doing away with the 8 round Garand clip in favor of a 20 round detachable box magazine. These parts sets can be assembled on an M1 Garand receiver which will require a few modifications to accept the new feed system. Parts are in very good condition, bores are nice. BM59002

MP 44 MASCHINENPISTOLE 44 SHOI NON FIRING REPLICA

Wow! That is just what you will say when you get your hands on this incredible replica Weight, feel and all details say...this is the real thing, if it was not for the orange plug at the muzzle, you would never know the difference, it even comes with dummy cartridges on a replica of the original ammo carton. The action is so real that when you squeeze the trigger, you will be expecting a burst of fire

The wood is correct right down to the color, the magazine fits and eject with the large round button flawlessly.... If you have a collection that is missing this WWII veteran, this is your ticket....at a fraction of the cost, you will have the very best replica I have ever seen.... Get one and you will not be disappointed! Here is a little history for you, the Maschinenpistole 44 (MP44) was the first modern assault

rifle to see major deployment, also the Sturmgewehr 44 (storm rifle 44 or assault rifle 44) both same weapons with minor differences only visible with close inspection.

The MP44 went into service in September of 1943 but its design dates to 1942, it was manufactured by C. G. Haenel Waffen und Fahrradfabrik (CITEFA), and 425,977 were made. Weight is 10.2 lbs, 37 inches in length with a barrel of 16.5 inches; this is the best replica have ever seen! Very limited quantities available, so get one while you can

BULGARIAN MAKAROV PISTOL

The "PM" (pistolet Makarova) designed under Nikolav Fyodorivich Kakarov, was the standard military side arm for the Russian forces, from 1951 to 1991. This 40-year veteran was selected for its simplicity (few moving parts), economy and easy manufacturing.
The cartridge (9x18mm Makarov) resulted from the German cartridge designed by Carl Walther for the Luftwaffe during WWII, at the time called "9mm Ultra". The Makarov, essentially a scaled up Walther PP, was a complete success and it continues to see service in several parts of the world today, it was used in combat during Vietnam and the Soviet war in Afghanistan. Purchase this marvel of engineering and ingenuity at a very affordable price while supplies last!!!

THE MOSIN NAGANT RIFLE (Pekhotniya Vintovka Obr. 1891g.) was designed by Colonel Sergei Ivanovich Mosin and the eding system by weapons designer Leon Nagant of Belgium.

Entered production in 1892 after several years of design changes and trials, this first production started at Chatellerault, France under contract and later continued in Russia at Ishevsk and Sestroretsk arsenals.

This rifle has been used in combat on many theaters of operations around the world, known for its accuracy and reliability. It was also used as a successful sniper weapon, even today the sniper version is often found being used in many hot spots. This rifle has been in use for 119 years since its first production. Here you have the opportunity to own a jewel of modern imes firearms for a very modest price and best of all you can have the accessories to go with it... hese rifles were hand picked over seas before being shipped as being the cream of the crop; so do not get confused with lower

priced rifles of lesser condition.

ROCK ISLAND 1911 MICROMAG 22 TCM / 9MM

Randy from GunsForSale.com writes that this is a brand new 1911-style autoloader chambered in the new .22 TCM caliber. Rock Island Armory cartridge designer Fred Craig said the proprietary .223-based pistol caliber round sends a 40 grain jacketed hollow point bullet downrange at 2100 feet per second. The goal was to make a 1911-type pistol "with the same weight, but double the firepower and delivering more foot pounds of energy." .22 TCM AND 9MM • 2 DIFFERENT BARRELS • Composite grips • 5 inch barrel

JLD ENTERPRISES PTR-91'S

Going, going.. gone!!!! For those of you

through our warehouse, we found a hand full of JLD Enterprises PTR-91's .308 rifles, I could not believe Enterprises PTR-91's .308 rifles, I could not believe my eyes...What a find!!! For the collector, this few new rifles are a must. As we all know JLD was the American Company out of Farmington Connecticut that made the PTR-91 on HK machinery and fixtures giving us the opportunity to own a jewel in accuracy and craftsmanship. Some even called it "better than the original". After a few years of production the Company was sold and the new Company change it's name to PTR91. From that point on, the receivers were no longer stamped with the famous JLD Enterprises name. Now you can own a piece of American orises name. Now you can own a piece of American Firearms Manufacturing History and have a firearm that will only go up in value as time goes by. The few rifles we have are new in their original case and som ave the aluminum handguard while just one or two ave the plastic black thin handguard of the very urly production. This will be a first come first ser have the piasue usus unitarity and they will be a first come first serve sale and they will go fast!!! Pickup your phone and call now before they are gone...As far as we know this are the only JLD Enterprises new rifles in existence that are for sale. Most people who already own one have them tucked away in their safe with other valuable collectors firearms. You might be the lucky person who is able to get one!!! \$1295.00 GUN249

This US MADE receiver will work on your G3, HK91, PTR91 and CETME

builds. Manufactured by PTR91 in Farmington Connecticut on HK factory tooling and equipment to exact HK specifications. Just like when building a house, the foundation must be strong and to exact measurements, this receiver will do the same for your build. Nothing but the very best in the market - that is the PTR91 receiver. Do not confuse this receiver with out of specs, cheaper receivers in the market. Start on the right foot and you will be proud of your finished product, further more, your build will have a higher re-sale value than any other build that has a less desirable receiver. No matter how you look at it, starting with this receiver is a "win win situation". Get them while supplies last!!! \$239.00 GUN445 Note: Receivers not sold together with kits.

P-64 PISTOL The P-64 Polish pistol also known as "CZAK", was design at the Military Institute of

Armament Technology (Wojskowy Instytut Techniczny Uzbrojenia w Zielonce---W.I.T.U). The design team consisted of : W. Czepukajtis, R. Zimmy, H. Adamczyk, M. Adamczyk, S. Kaczmarski and J. Pyzel. Using the first letter of each team member, except for J. Pyzel, that came on board after the pistol was named, they came up with CZAK pistol. The pistol also know during the trials as Model W (Woiskowy), has a 7 round capacity and it is chambered for the 9x18 Makarov round, went into service in 1965 and it is still in use. It is manufactured by the Lucznik Arms Factory and at 6.3" in length and 4.6" height, makes for a nice carry pistol topped by a very powerful round. CENTURION UC-9 CARBINE WITH FIXED WOOD STOCK This

semi-automatic copy of the UZI has the added value of the fixed wood

stock and the longer 16" barrel with 1:10 twist, making the 9x19mm round more accurate than ever. Developed by Uziel Gal in the 1950's has a closed bolt straight blowback operation, having the magazine inside the pistol grip makes for it's compact size. Overall length is 31.5" and weights 9.1 lbs, so it absorbs most felt recoil. One word to describe it "AWESOME" \$699.95 GUN468
