Shortly after 9/11 President George Bush said on CNN, "Islam is a beautiful and p very stupid man. I'm sure no one believes he knows anything about Islam that he wa invited to the White House.

George's object, and that of CNN, seems to be to convince the American public that Islam and terrorism. But how many Baptists were among the 19 Highjackers of 9/1 blown themselves up in Israel? How many Methodists or Presbyterians broadcasting to destroy America? Was the failed shoe-bomber a Jehovah's Witness?

Islam, the belief system represented by the non-existent Allah was and is behind all th the last few years. America is harboring about 18 million Muslims, all of whom p "Politically Incorrect", told Larry King that 99% of U.S. Muslims were loyal. That s the respect for Maher, whom I now suspect is just as much controlled as those he ac as to loyalty, can a Muslim be loyal to the United States? CNN interviewed a young how strong was his loyalty to the U.S. Constitution. He answered that he would be lo as it didn't conflict with the Koran, and then he'd stick with the Koran. Imagine a yo go along with the Israeli constitution as long as it didn't conflict with Mein Kampf. Mein Kampf.

But the Koran couldn't be more in conflict with our Constitution. The Koran says, "A or woman, to have any choice in their affairs when God, (Allah) and his apostl whosever disobeyeth God and his apostle, erreth with palpable error". Could anyone s be loyal to the U.S. Constitution? We can't put up with such divided loyalties in thes the Amish, and other offshoots of our typical belief systems who refuse to salute the They are no threat. But the threat from believers in Allah has been made all too clea to be an American, even those born here. Allah is not a being, but an alien idea, ho stands for. Muslims have proven themselves to be a danger, constant references to thi us should cause every loyal American to reject anyone who accepts the teachings of A

Most Americans are inclined to consider Muslim terrorists as religious fanatics. But

place?

The common idea of a religion is a belief system with a deity which inspires and care. It also promises a better afterlife for believers whose earthly lives were filled with faith.

These are the basic attributes a being must have to qualify as a god. But how do we consider; ever since the sixth century con-man and fraud, Muhammad, gathered a flock of sheep and then passed an oppressive belief system on to his crooked relatives, Islamic rest of humanity. Among themselves, it has always been family against family, factious tribe, Islamic nation against Islamic nation and every Islamic nation against their non-

Anyone who has read George Orwell's "1984" can see Islam as INGSOC and the Islam is a system which is set up for power, profit and control, with the emphasis whatever to the believer.

An example of the control is the willingness to die for Allah of literally millions of Muslims. This is their willingness is to no purpose. Allah's troops are conditioned to believe in their victory over the greatest technological power in history. Saddam Hussein promised them. In the Gulf War Allah's troops went into battle against the U.S. armed mainly with tanks they didn't know how to use. Our side lost less than 300, mainly due to a missile which hit them were over a hundred thousand. One stretch of highway over a mile long had thousands of bodies body-to-body. The survivors, who had vowed to die for Allah, rather than suffer defeat, ran to reporters.

Osama Bin Laden boasted over Al-Jazeera that Allah's troops would destroy the infidels. His dupes had gone on and on about how they were willing, even anxious, to die for Allah. When they joined they were slaughtered like rats in a basement and, thinking better of dying for Allah, they ran like rabbits.

Below is a description of the battle of Iwo Jima from "American Military History".

**IWO JIMA, BATTLE OF (1945)** When the Joint Chiefs of Staff directed the commander, Adm. Chester \*Nimitz, to occupy an island in the Bonin volcanic chain in the western Pacific campaign in World War II, the only island of significant size. Early in 1945, Japanese fighter aircraft from there were harassing the B-29s on their raids from the Marianas against Japan. Also, an emergency recovery area for B-29s returning damaged or short on fuel.

Mt. Suribachi, at 556 feet, is the most prominent landmark of the seven chop-shaped island, where Lt. Gen. Tadamichi Kuribayashi had 21,000 men. Forsaking the Japan doctrine of defending at the water's edge, he decided to defend from an elaborate system of caves and tunnels.

On the American side, Vice Adm. Richmond K. Turner commanded the Expeditionary Force with Lt. Gen. Holland M. Smith as commander of the Expeditionary Troops, while Maj. Gen. Harry Schmidt commanded the Marine Corps, consisting of the 3rd (Maj. Gen. Graves B. Erskine), 4th (Maj. Gen. Keller E. Rockey) Marine Divisions. At 0930 on 19 February the first wave of armored amphibian tractors touched down, 5th Division on

**Division on the right. On the left, the 28th Marines, an infantry regiment toward Suribachi, and after four days of fighting gained the top of the mountain reached the crest and tied a small American flag to a piece of pipe. Three hours later the flag was brought up—one that could be seen from all over the island. . . . An Associated Press photographer, took a picture of its raising that was published all over the world.**

**The main effort was a slow advance to the north, with the 5th Division on the left and the 4th Division on the right. The 3rd Division was fed into the center of the line and shouldered forward. After days of heavy fighting, the island was secured. Altogether, 71,243 Marines had been put ashore; of these, 5,931 were killed and 17,372 wounded. Twenty-two Marines, four navy hospital corpsmen, and one aircraft commander were awarded the Medal of Honor, half of them posthumously. The number of Japanese killed has never been determined exactly, but only 28 were taken, most of them Korean conscript laborers. The terrible cost to America was more than balanced by another statistic: by war's end, 2,251 heavy bombers, with crews, had made emergency landings on Iwo.**

There were 21,000 Japanese troops on Iwo Jima, all pledged to die for the Emperor. They were dug into caves in Mount Suribachi, much like Toro Bora. From these caves they fired at American Marines and wounded 17,372, as opposed to only one combat casualty. When the island was taken, there were only 216 prisoners taken, most of who were laborers.

Throughout the battle the Japanese endured a fierce bombardment from thousands of sorties from carrier-based fighter bombers.

Compared to the Japanese, Allah's troops are just a lot of effeminate cowards. General Kuribayashi, true to his soldier's code, died with his troops, unlike Bin Laden, Allah's troops and ran. He may be in Pakistan now, boasting to his cronies what he will do to the Great Satan.

Muslims have never been good at soldiering. Their many wars with Israel have shown them to be incompetent. This is mainly due to their belief that they were backed up by Allah. Allah existed and was only the fantasy of ignorant primitives.

Even during the Middle Ages, Islam as a military force was a joke. As shown in "**Crusades**", reprinted on our CD Vol. 1, issue 1 (and at this website), shows that what saved Islam then was the ignorance and disorganization of the Crusader army. The Muslims outnumbered the Crusaders at least 10 to one to be effective. One Crusader knight could kill ten Muslims without working up a sweat.

Today's Muslims are even worse. The Muslim performance in Afghanistan

the most disgraceful in military history.

Now to the "Great Satan". The Koran refers to "Sundry Satans". I don't use the term, "Satan". The Biblical Satan is one being, not sundry. Perhaps the term has an evil being. Maybe that's what Muslims call "djinnns", devils invented in ancient times. Allah couldn't deliver on his promises, in which case, satans or djinnns must be a

CNN has often had spokespersons saying that the whole Muslim world hates us and Israel in particular. I don't believe they really hate either us or the Israelis. It is so simple and complex for their primitive minds to grasp.

Islam, with its billion believers is the great underclass of our planet. It is a tyranny. Except in the oil-rich nations, most other Islamic nations are vastly overpopulated, hungry, uneducated, backward people. It is more accurate to see their attitude as that of the mud hut versus the skyscraper.

Every Muslim, even the most isolated, has seen magazines, an occasional television. They know enough of the civilized world to realize that people of the Great Satan are among the most wretched. Of course, the mullahs want it that way. The more ignorant they are, the easier they are for the mullahs to control; the control becomes more important than anything else. The mullahs preach an ideal, simple sixth century system which they think they would understand the system, would not have to think and would not need to work. They would be as happy as children all their lives. Of course, they are too ignorant. Sixth century agriculture and technology of their dreams could not feed a hundred million.

Their mullahs know this and yet lead these pitiful incompetents to believe that they are successful anyway, and they would be successful if what Allah would provide had no infidels and our Great Satan.

Since this wretched underclass has no chance of ever rising above the fantasies of their own skyscrapers are only an idiotic dream. Therefore, they are not skyscrapers. To best understand their thought processes read Lothrop Stoddard's "The Civilization of the 19th Century", 1922. It is an interesting read and will help you to better understand them as well as that from our own incompetent minorities.

People who think like this are so programmed to believe that infidels are not to be trusted, no matter how friendly they act or what credentials they hold. The Muslim Secret Service agent, obviously a mole, who worked his way near to the

Since he was an alien with a gun and a possibly false I.D. and made a mistake, the pilot was right in keeping him off that flight. People who fly should be grateful. Even so, since George said the pilot's caution made him "mad as heck", we can't make it easier for terrorists to get aboard planes unless the pilots are willing to profile themselves from nannies from the president on down. That same president said, while standing in front of WTC, "The people who knocked these buildings down will hit all of us soon".

This incident gave me an interesting fantasy. Say that Muslim creep did get George. He pulls his gun and shoots George in the face, killing him. Natural presence of mind to drop the gun and throw up his hands.

He would be taken into custody and treated well, all his "rights" being provided with the best Arab-American defense attorneys, at taxpayer's expense packed with Muslims, for fear of profiling. He would automatically become the world's Muslims, greater even than Bin Laden. His defense attorneys would expect that since George was the Great Satan's chief representative on Earth, the killer religion in a heroic act for Allah and all Islam.

Would you trust any Muslim near your president? I wouldn't. But George gets lots of luck, Stupid.

For the past several weeks, CNN has been promoting the English translation published by Everyman and Tuttle in North Clarendon, VT. I've reproduced the page of the Index showing that the name "Allah" does not appear in the book; it says "God", since that is the term the infidels use for their deity. As the Hindus and the Israelis call theirs "Adonai", so the Muslims call theirs only "Allah". Infidels believe, somehow, that theirs is the same deity as the one we grew up with. My own wife believed "Allah" was just another name for her Baptist God, otherwise by reading the excerpt from the 1892 edition of the Encyclopedia Britannica Allah as having a wife and daughters. There is no similarity between Allah and the Bible. Muslims also say "there is no god but Allah", meaning yours doesn't exist. Allah, even if it means killing you, which is the long-range plan of all Islam.

Another purpose for the English translation seems to be to prove to an infidel that Islam is threatening. The book is stupid but is indeed non-threatening. Page after page of kindness, forgiveness, blessing, compassion, etc. Allah is presented to us as a reward. We are to read it and note all this sweetness and light and believe it is a beautiful religion. So where in this book do Muslims worldwide get their hatred and violence toward Muslims?

Any Muslim scholar will tell you that one can't get the true meaning of Islam from the Koran in its original Arabic. Since Arabs have been ignorant, primitive and brutal for thousands of years, I would expect anything written in the original Arabic to be ignorant. The translators edited out all the hateful parts to convince us that Islam is a beautiful religion. CNN has shown us all too clearly that everything about the original Islam is horrible.

I want you to examine the first page of the English Koran. "In the name of Allah, the most compassionate, the merciful". Since when? How has this being, or the belief in Allah, been compassionate and merciful?

Afghanistan has had a devastating drought for over three years. This has have given for not being able to feed their starving people. Millions of Afghar Allah to send rain while their children starved to death. But the "compassionate sent no rain. But the compassionate and merciful "Great Satan", from January million in food and medical aid and more than three times that much since. S Allah to withhold rain while depending on the Great Satan to send food? All th indeed Allah's. Without Islam's restrictions against any sort of birth contro children to die of neglect and starvation.

We've all seen TV coverage of Somalia, with the 300,000 little skeletons grown men strutted around with their guns, uncaring about the children they cc food stores and money from Osama Bin Laden and fellow Muslim nations.

The same goes for Al Qaeda and Taliban ignoring the starving Afghan chi and those he influences are compassionate and merciful is so absurd that anyo god starts out being stupid and goes on to be insane. Yet we have millions of Instead of being sent to the Middle East where they belong, even more are get

us that they are among us and lying in wait to strike. Don Rumsfeld said that Al-Qaeda cells operating here while CNN guests bitch that the thousands of Arabs in custody are being deprived of their rights.

A minor aggravation has been exposed by CNN that Al-Qaeda and Taliban have been shot, have been given copies of the Koran. Did the Americans guarding them give them each a copy of Mein Kampf? This show of concern for enemy vermin

Imagine that, instead of the Japanese attack on Pearl Harbor a commandeered passenger liner crashed one into the Empire State Building, the White House and one into the War Department. Within a few hours of identifying the wreckage there would have been an unlynched mullah or an unburnt mosque in the U.S. (There's still time)

Of course, we've gotten over the main attack and are waiting for the sleeper cell. We have much stock in such threats since these people are too stupid to be as effective as we think. That some fool might strap on some bombs and go to a MacDonald's. All that we need to do is have about 15 National Guardsmen stationed at each MacDonald's and Wendy's.

Although the first page of the 500 pages of drivel, the Koran, should prove to be a fraud, their after-life promises are so ridiculous as to make one wonder how anyone could hope for sex in the after-life. Take the Houris. They have dark eyes, but are ever virgins. There are two reasons why a male should want a virgin. The main reason for Muslims is that a virgin female would not recognize what a lousy lover he is, especially in a tightly-knit tribal community, he is pretty much assured that any woman he has sex with will be a virgin. But in modern times, and especially in the U.S., the dummy just isn't reckoning

That Houris could be ever virgins is nonsense, anyway. Here's a guy who is too stupid to know what a klutz he is. Or maybe she's some kind of inflatable doll, in which case it would not be a consideration. Otherwise Allah would have to be able to perform hyrcan magic. Once a female has been sexually entered, she is a non-virgin for the rest of her life. I think it would be a lot simpler if these tulips should just settle for the "blooming AIDS in Paradise.

A cute part on the first page is the reason people are unbelievers in Allah. They have their ears sealed and over their eyes is a covering. For them a seal is a seal.

So Allah is going to chastise those he prevented from believing in the after-life. I imagine the thousands of unbelievers his believers sent to the other side on 9/11. I don't exist, I'm sure his victims have kicked that sorry bastard to the center of the sun.

All kidding aside; CNN tells us that International Islam is out to get us. It's a worldwide network of cells of highly proficient terrorists all plotting our doom. So Allah is out to get us. What we have to do is to declare war on Allah and root out Islam wherever it is found worldwide. That might seem like a tall order, but not for us with all the help we

World Islam has been dying for the past 200 years. As the world gets more Islamic nations realize that the sixth century socio-economic system so yearned for by fundamentalists would destroy their own power structures. They have to move like today's Iran, since the ouster of their progressive Shah, a backward, over-populated

All over the Islamic world the more progressive nations are turning on them and that "terrorists" are more a danger to their own political and economic situation. They anticipate that as they weed out their militant mullahs they face revolt by their people. This puts them between a rock and a hard place. But they chose power over progress and a dangerous tightrope of their own making.

Of course, our own FBI and security services are tracking down illegal American mosques and profiling in ways they would never admit to.

You may think that destroying Islam is too big a job and that one can't kill it which no longer work because those using them are simply exploiting the ignorant game. Three such ideas were killed in the last century. The idea that Hitler and sent by Providence was widely accepted in Germany. Children prayed to Hitler as the actual Second Coming. After the Allies pounded Germany to rubble and the German government outlawed National Socialism and the preaching of it is still

Japan's militant Shinto got millions of Japanese civilians slaughtered, the bombs on Hiroshima and Nagasaki. Hirohito was a living god. MacArthur and decided that the idea of Hirohito's godhood no longer worked and it was effective

Within a few short years after the war both Germany and Japan rose out to be two of the most powerful industrial economies.

And remember Communism? It was the terror of the 20th Century. But finally realized it didn't work and they would have to dump it or go under. The only countries to be communist are North Korea, Cuba, China and Viet Nam. None of their systems are based on Marxism/Leninism. They are communist in name only. Communism is dead.

Muslim leaders know all this but hope, with American aid, they can re-modernize. Of course, the people of Germany and Japan had been intelligent and had culture and technology before the war. Muslims are almost sub-human by comparison and have about as much chance to rise as a bunch of baboons trying to rebuild the World.

Now, how do you figure in all this. CNN has told us over and over that the world is heading for a depression which will be followed by depression and collapse. Our economy is so over-extended that the average person will have to look out for himself and his loved ones by creating a survival system.
